THE CART

Built for daily life. **Designed to stand out.**

The Aries EV Classic 4-Forward (C4F) is a lithium golf cart engineered for neighborhoods, communities, and everyday driving. Powered by a 48V 5kW AC motor paired with a maintenance-free 105Ah lithium battery, the C4F delivers smooth, responsive performance with zero compromises on comfort or style. Four passengers, all facing forward — the way a cart should be.
